

# Xerox 7600 Scanner

## Scan your photos or papers with One Touch Buttons

- Ultra Slim Scanner
- Five Convenient One Touch Buttons
- USB Powered
- Specialised Lid Hinge to enable you to scan books or magazines
- 1200 dpi Optical Resolution
- 48-bit Internal Colour
- Portable & Lightweight

### The power of One Touch

Whatever and whenever you need to scan, Xerox has brought quality and ease of use to your fingertips. The Xerox 7600 changes the way people think about scanning – the five buttons powered by Visioneer OneTouch are pre-configured for common scanning tasks so you can scan to popular destinations such as email, folders and photo editing software. One Touch buttons can also be customised to provide even more power for advanced users.

In addition to scanning direct to all popular destinations, Visioneer OneTouch also links the Xerox 7600 with industry-leading document management software, such as, Microsoft SharePoint, DocuWare and Xerox DocuShare – forming an easy to use workflow from paper to a selected destination.

### Digital technology for your photos!

Whether you are a professional photographer or just want to scan your family photos, the Xerox 7600 Scanner is the perfect tool to indulge your creativity. With 1200 dpi optical resolution and 48-bit colour, the Xerox 7600 Scanner captures the finest detail from your original image.

### The software to get the job done!

ArcSoft PhotoImpression offers the perfect combination of power and simplicity so you can do more with your photos. From quick corrections to creative editing, you can easily achieve high-quality results. Whether you scan traditional photos, drawings or maps, PhotoImpression makes digital imaging simple.

PhotoImpression allows you to edit, retouch, enhance and manipulate your photos, turning them into compelling visuals for inclusion in hundreds of projects

Nuance PaperPort automatically creates thumbnails of your documents and images then lets you organise them in colour coded folders or drag and drop them to your favourite applications on the Link Bar.

### Powerful Technology

The Xerox 7600 Scanner is ideal for the photo enthusiast who wants to scan photos and prints. It also works well for establishing a paperless office or creating colourful projects for print or internet use. Scanning photos and documents has never been easier.

Includes drivers designed for Windows Vista and XP to ensure compatibility and enhance your digital imaging experience.

# Xerox 7600 Scanner

## Email – Stay connected with family and friends

Place a photo, document or magazine article on the glass, press the EMAIL button, which automatically launches Visioneer OneTouch technology which automatically performs a high resolution scan and then launches your email application and attaches the scanned photo or document to a new message as a JPEG or PDF file for example. All you need to do is type in the email address.

## Copy – Turn your PC and printer into a copy machine

Need to make a copy? Your scanner, printer and PC provide all you need to make copies at the touch of a button. Place a document on the glass, press the COPY button and Visioneer's OneTouch technology scans and sends the page to your printer for a crisp black & white or colour copy.

## Scan – Manage your documents in a paperless office

The SCAN button sends documents or images to the PaperPort desktop where you can drag them into folders you create according to your needs. PaperPort is the perfect application for managing your home or business records. For extra peace of mind, copy your scanned records to removable media such as a CD-R or DVD-R disk for storage in a safe place.

## Archive – Relax. Your documents are protected.

You can have peace of mind knowing that your important documents, records, photos and certificates are backed up. Use the ARCHIVE button to scan your important documents to be burned onto CD-R or DVD-R. Paper is a temporary state of information – scanning your documents is the first step to ensure

their survival beyond paper. Storing these documents off-line on removable media provides added assurance that they will be protected if your computer encounters a problem.

## Photo – Scan photos for easy image editing

ArcSoft PhotoImpression is included with your scanner so that you can edit, resize and enhance your photos. The PHOTO button is directly mapped so that your scanned photos are opened in the PhotoImpression application. PhotoImpression allows you to:

- enhance, resize and crop your photos
- save photos in all major file formats
- organise related photos in groups
- apply clipart, frames and edge effects to your photos
- create many other fun and creative effects
